

Lumen Dental Brand Guidelines

Prepared by Northwind Studio

Color: deep teal (#0F766E) with a warm sand accent (#E8D5B0).

Both pass contrast checks on the clinic's printed forms.

Logo: use the rounded wordmark on light backgrounds and the monogram on teal. Keep clear space equal to the height of the letter L.

Typography: a friendly sans-serif for headings, a neutral one for body text. Body copy is never smaller than 11 pt in print.

Tone: calm, plain and warm. Say what happens next, not what could go wrong.
